Certified Organic Pastured Chicken Share –

Delivering a chicken, or two, once a week. The chicken share starts as soon as they come available, around the beginning to end of June, and carries on for 24 weeks. The chicken will be fresh when we process—about 4-6 times a year, otherwise they will be freshly frozen in vacuum sealed bags.

We will supply one chicken a week for the market season, totaling 24 chickens. Chicken weight will fluctuate according to time of year but will average out to at least 3.6 pounds per chicken.

Pricing –

A full share is \$400

A double share is \$790

Half payment is due upon beginning of the market share. The other half payment is due mid-way through the season, the first week of September.
